OBJECTIVES

B.Tech Computer Science student seeking an SDE role, with strong foundations in data structures, problem-solving, and hands-on experience in MERN stack, aiming to build scalable and efficient web applications.

EDUCATION

Bachelor of Technology in Computer Science Engineering Udaipur, Rajasthan
TECHNO NJR INSTITUTE OF TECHNOLOGY

N.C.A Senior Secondary School Udaipur, Rajasthan
Class 12th (RBSE) - Percentage 87%

N.C.A Senior Secondary School Udaipur, Rajasthan
Class 10th (RBSE) - Percentage 93%

SKILLS

Programming Languages : C , C++

Tech Stack : MERN Stack (MongoDB , ExpressJs , ReactJS , NodeJS) , MYSQL

Tools : Git , GitHub, Postman

Systems: Linux(RHEL), Process management, File systems, LVM, SELinux

PROJECTS

Smart Placement Tracker Application
MERN STACK
- Built a MERN-based system for managing campus placements with role-based dashboards and real-time application tracking.
- Designed an efficient backend schema to handle eligibility criteria and company-student relationships at scale.

SQL QueryBridge
MERN STACK , MYSQL
- Built a MERN-based tool to visually construct and execute SQL queries with dynamic schema loading from MySQL.
- Implemented real-time query execution, result visualization, and features like query history and CSV export for efficient data interaction.

Event Automation System
MERN STACK
- Built a MERN-based platform to manage events, registrations, and scheduling with a responsive React interface.
- Designed backend APIs and optimized database structure in MongoDB for efficient event and participant management.

OTHER ACTIVITIES

Smart India Hackathon 2025 Backend Developer
Worked as a Backend Developer, designing APIs and implementing core application logic in a team environment.

Smart India Hackathon 2024 Frontend Developer
Worked as a Frontend Developer, developing responsive interfaces and improving usability in a collaborative setup.

CERTIFICATES

Cpp Programming Language
Duration : - 6 weeks

Red Hat Certified System Adminstrator
Duration :- 21 Days

MERN Stack Training Certification
Duration :- 3 Months

Data Structures and Algorithms
Duration :- 22 weeks
